

Overview of ASEAN Plus Three Cooperation

The ASEAN Plus Three (APT) cooperation process began in December 1997 with the convening of an Informal Summit among the Leaders of ASEAN and China, Japan and the ROK at the sidelines of the 2nd ASEAN Informal Summit in Malaysia. The APT Summit was institutionalised in 1999 when the Leaders issued a Joint Statement on East Asia Cooperation at the 3rd APT Summit in Manila. The Joint Statement for the first time determined the main objectives, principles and further directions of APT countries cooperation. In the Joint Statement, the APT Leaders resolved to strengthen and deepen East Asia cooperation at various levels and in various areas, particularly in economic and social, political and other fields.

2. Eight years later, at the 11th APT Summit in 2007 in Singapore, the 2nd Joint Statement on East Asia Cooperation called “Building on the Foundations of ASEAN Plus Three Cooperation” was adopted. The Statement reaffirmed that the APT process would remain as a main vehicle towards the long-term goal of building an East Asian community, with ASEAN as the driving force. The APT Cooperation Work Plan (2007-2017) was accordingly endorsed to serve as the master plan to enhance APT cooperation for a period of ten years. The succeeding Work Plan covering the period 2018 – 2022 was adopted on 7 August 2017 in Manila by the 18th APT Foreign Ministers Meeting.

3. Since then, the APT framework has become an important element for fostering East Asian regionalism. The APT cooperation has broadened and deepened to cover a wide range of areas of political and security; transnational crime ;trade and investment; finance; tourism; agriculture and forestry; energy; minerals; micro, small and medium-sized enterprises; science, technology and innovation; environment; rural development and poverty alleviation; social welfare; active ageing; youth; women; civil service; labour; culture and arts; information and media; education; disaster management; public health; and connectivity. The APT process has also developed into a full-fledged cooperation framework with 65 mechanisms coordinating APT cooperation.

The EAVG I final report entitled “East Asia community of Peace, Prosperity and Progress” which was submitted to the APT Summit in 2001, laid a solid groundwork for the future direction of East Asian regional cooperation. One decade later, the EAVG II was established in 2011 to take stock of the APT cooperation activities and studied the future direction of the APT cooperation and the report was submitted to the 15th APT Commemorative Summit in Phnom Penh on 19 November 2012.

7. The APT continues to deepen political and security dialogue through the annual APT Summit and high-level consultations. The 24th APT Summit held on 7 October 2021 via videoconference reaffirmed the APT commitment to strengthening dialogue and cooperation in combatting transnational crimes and addressing non-traditional security issues, such as trafficking in persons, cybercrime, countering terrorism and violent extremism and illicit drug trafficking.
